

Szigetmonostor Szentendrei sziget

250 000 000 HUF

The 7317 square meter property shown in the photos awaits its new owner on the island of Szentendre, in a quiet, peaceful, green environment. Of the total area, 400 square meters is classified as a residential house/yard, while the larger part is classified as an orchard/farm building.

On the garden side of the building, there is a large, 70-square-meter south-facing terrace with a charming panoramic view. On one side of the terrace is the living room, kitchen, and dining room, and on the other side are three bedrooms, a closet, two bathrooms, and a toilet. The windows are positioned so that wherever you are in the house, you can see the garden and the 150 m² fish pond.

The basement level houses a two-car garage, boiler room, storage rooms, and pantry. From here, you can access the covered swimming pool with counter-current system, sauna, and wine cellar. The house is heated and hot water is provided by a heat pump, but as an alternative, there is a mixed-fuel boiler, a gas-circulating system with radiators, and a fireplace in the living room, which not only adds to the atmosphere on this level but is also capable of heating the entire house.
